

ER - 6-2744

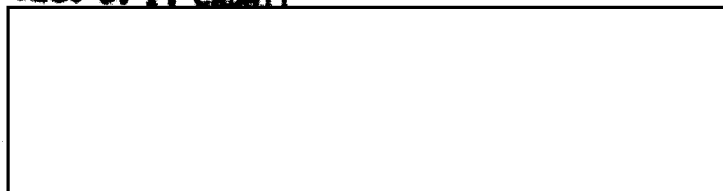

MEMORANDUM FOR: Rear Admiral Carl F. Hope *Carl*
Director of Naval Intelligence

SUBJECT : South American Trip

1. Attached is a copy of my itinerary through South and Central America. The ostensible reason for this trip is for me, as a pilot, to get in some flying time in South America, an area in which I have long wished to visit. As for Central America, although I have been there a number of years before, I would like to renew my familiarity with this area. While I'm not trying to hide the fact in any way that my present position is as Deputy Director of Central Intelligence, my reasons for the trip are as given above. My aim is to slip in and out of the various places with as little fanfare as possible, giving due consideration to the proprieties.

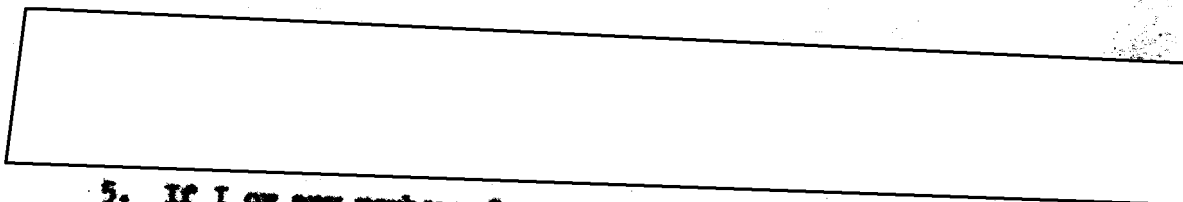

2. The party will consist of:

Lieutenant General C. P. Cabell, USAF
Mrs. C. P. Cabell

STAT

3. The trip will be made in Air Force C-54 except as noted on the attached itinerary.

STAT

5. If I or any member of my party may be of service to the Navy in connection with this trip, I trust you will call on me.
